## Acquisition of Anestation,Ltd.

~ Acceleration of Free Agent Physician Placement Business Through  
Addition of a Growth Engine Based in Kansai ~

M3, Inc. (Headquarters: Tokyo, Japan; CEO: Itaru Tanimura; URL: <https://corporate.m3.com/en/>; "M3" below) has announced the acquisition of Anestation,Ltd., ("Anestation" below) a firm based in the Kansai area specializing in placement of anesthesiologists, through its subsidiary, M3 Career, Inc. ("M3 Career" below).

M3 operates m3.com, a medical portal servicing 250 thousand physician as well as other medical professional members, providing various services such as comprehensive career placement support for physicians and pharmacists.

The newly consolidated Anestation operates an anesthesiologist placement service website, "Anenavi," providing services that introduce roughly 760 free agent anesthesiologist members to roughly 350 medical institutions across the Kanto area (serviced approximately 1,700 free agent anesthesiologist placements in 2015.)

With the decreasing availability of full time anesthesiologists at medical institutions across the country, advancement of Anestation's free agent anesthesiologist placement service will improve the work environment for overstretched anesthesiologists by reducing unnecessary standby time, while also enabling anesthesiologist assisted operations at medical institutions lacking full time anesthesiologists, and hence contribute in the provision of higher quality of medical care.

Going forward, synergies with M3's physician and medical professional membership base will allow nationwide expansion for Anestation and fortification of the free agent placement business, providing an opportunity to strive toward becoming the top player within the industry.

## Overview of Anestation, Inc.

Established: 2007

Address: Osaka, Japan

Business Description: Physician job placement for physicians (anesthesiologists)

Employees: 3

## Expected Effects from Synergies with Anestation

1. Fortification of membership base and service quality improvement
2. Nationwide expansion of related services
